Alerting Abstract US A1

NOVELTY - An assortment of feminine care products for consumer, is determined at predetermined location, based on the information provided by the consumer. The determined assortment includes a non-commercial quantity of absorbent catamenial product. A purchase order placed by the consumer is accepted, at another location for at least determined assortment of feminine care products.

DESCRIPTION - An INDEPENDENT CLAIM is included for consumer-specific assortment determination method.

USE - For processing purchase order of feminine care products.

ADVANTAGE - Allows the consumers to purchase products from homes and workplaces, easily and effectively. Eliminates need for product storage for long period.

DESCRIPTION OF DRAWINGS - The figure shows a flowchart of purchase order processing method.

Alerting Abstract US A1

NOVELTY - Determination of proper size of interlabial absorbent article involves correlating at least one factor relating to physical characteristic or trait of a wearer with corresponding product size, arranging into data form and providing the data to the wearer prior to purchase of the absorbent article products.

DESCRIPTION - An INDEPENDENT CLAIM is included for a system helping consumers with selection of a proper size interlabial absorbent article product.

USE - For aiding consumers in selecting the proper size of interlabial absorbent article.

ADVANTAGE - The method is not limited to any particular type or style of interlabial device. It can be used by consumers and manufacturers for predicting the proper size article for any manner of interlabial device. The method is premised on identifying factors e.g. physical characteristic or trait of consumer that influence proper selection between different sized articles. The factors are correlated with product sizes into an easy to read and interpret data format.

Purchase order **processing method for feminine care products , involves determining assortment of feminine care products for consumer, at predetermined location, based on information provided by consumer**

Original Titles:

Method of selecting **feminine care products** and processing orders therefor...

...METHOD OF SELECTING **FEMININE CARE PRODUCTS** AND PROCESSING ORDERS THEREFOR...

Alerting Abstract ...NOVELTY - An assortment of **feminine care products** for consumer, is determined at predetermined location, based on the information provided by the consumer. The determined assortment includes a non-commercial quantity of absorbent catamenial product. A **purchase order** placed by the consumer is accepted, at another location for at least determined assortment of **feminine care products**. DESCRIPTION - An INDEPENDENT CLAIM is included for **consumer - specific** assortment determination method...

...USE - For processing **purchase order of feminine care products** .
...

...ADVANTAGE - Allows the consumers to **purchase** products from homes and workplaces, easily and effectively. Eliminates need for product storage for long **period** .
...

...DESCRIPTION OF DRAWINGS - The figure shows a flowchart of **purchase order** processing method.

Title Terms/Index Terms/Additional Words: **PURCHASE** ; ...
... **ORDER** ;

Class Codes

International Classification (Main): **G06F-017/60**

Original Publication Data by Authority

Original Abstracts:

A method of processing a **purchase order** for a **consumer - specific** assortment of **feminine care products** , which may include non-commercial quantities of absorbent catamenial products, is preferably implemented via an **Internet web site** , allowing consumers to conveniently and discretely place **purchase orders** for such product assortments. The **ordered** assortment can be delivered on or about a target delivery date specified by the consumer. The custom product assortment may include other types of **feminine care products** typically needed by the consumer on a monthly basis, including contraceptives and **menstrual** cramping medication. The **consumer - specific** assortment of **feminine care products** may be determined by prompting the consumer for certain detailed information related to her **monthly cycle** and then processing this information to produce a **consumer - specific recommendation**.

Claims:

What is claimed: b 1 /b . A method of processing a **purchase order** for a **consumer - specific** assortment of **feminine care products** , the method comprising the steps of:determining at a first location an assortment of **feminine care products** for a consumer at a second location remote from the first location based on information provided by the consumer, the determined assortment of **feminine care products** including a non-commercial quantity of at least one type of absorbent catamenial product; andaccepting at the first location a **purchase order** placed by the consumer at the second location for at least the determined assortment of **feminine care products**.

Detailed Description

Detailed Description

... In one embodiment, a genome-derived single-exon
microarray is packaged together with such an **ordered** set of
amplifiable probes corresponding to the probes, or one or
10 more subsets of...300 are
thus input into one or more primer design programs, such as
PRIMER3 (available **online** for use at
<http://www-genome.wi.mit.edu/cgi-bin/primer/>), with a goal...Mondrian
visual display of annotated sequence can serve as a
convenient graphical user interface for **computerized**
representation, analysis, and query of information stored
15 electronically. For such use, the individual nucleotides...
...input query sequence. When visual
display 80 is used as a graphical user interface to
computerized data, additional control over the first and
last displayed nucleotide will typically be dynamically
5...to the development of cirrhosis. These include,
e.g., the genes responsible for Wilson disease (**Online**
Mendelian Inheritance of Man ("OMIM") 277900),, type IV
glycogen storage disease (OMIM 232500), galactosemia (OMIM...of sequence
centered on the ORF
was passed to the primer picking software, PRIMER3
(available **online** for use at
<http://www-genome.wi.mit.edu/cgi-bin/primer/> A first
additional...

IP-based virtual private networks and proportional quality of service differentiation

Author: Zeng, Jingdi

Degree: Ph.D.

Year: 2004

Corporate Source/Institution: New Jersey Institute of Technology (0152)

Adviser: Nirwan Ansari

Source: VOLUME 66/06-B OF DISSERTATION ABSTRACTS INTERNATIONAL.

PAGE 3336. 100 PAGES

Descriptors: ENGINEERING, ELECTRONICS AND ELECTRICAL ; COMPUTER SCIENCE

Descriptor Codes: 0544; 0984

ISBN: 0-542-20777-X

IP-based virtual private networks (VPNs) have the potential of delivering cost-effective, secure, and private network-like services. Having surveyed current enabling techniques, an overall picture of IP VPN implementations is presented.

In **order** to provision the equivalent quality of service (QoS) of legacy connection-oriented layer 2 VPNs (e.g., Frame Relay and ATM), IP VPNs have to overcome the intrinsically best effort characteristics of the **Internet**. Subsequently, a hierarchical QoS guarantee framework for IP VPNs is proposed, stitching together development progresses from recent research and engineering work.

To differentiate IP VPN QoS, the proportional QoS differentiation model, whose QoS specification granularity compromises that of IntServ and Diffserv, emerges as a potential solution. The investigation of its claimed capability of providing the predictable and controllable QoS differentiation is then conducted.

With respect to the loss rate differentiation, the "packet shortage" phenomenon shown in two classical proportional loss rate (PLR) dropping schemes is studied. On the pursuit of a feasible solution, the potential of compromising the system resource, that is, the buffer, is ruled out; instead, an enhanced "debt-aware" mechanism is suggested to relieve the negative effects of "packet shortage." Simulation results show that "debt-aware" partially curbs the biased loss rate ratios, and improves the queueing delay performance as well.

With respect to the delay differentiation, the dynamic behavior of the average delay difference between successive classes is first analyzed, aiming to gain insights of system dynamics. Then, two classical delay differentiation mechanisms, that is, proportional average delay (**PAD**) and waiting time priority (WTP), are simulated and discussed. Based on observations on their differentiation performances over both short and long time **periods**, a combined delay differentiation (CDD) scheme is introduced. Simulations are utilized to validate this method.

Both loss and delay differentiations are based on a series of differentiation parameters. Though previous work on the selection of delay differentiation parameters has been presented, that of loss differentiation parameters mostly relied on network operators' experience. A quantitative guideline, based on the principles of queueing and optimization, is then proposed to compute loss differentiation parameters. Aside from analysis, the new approach is substantiated by numerical results.

ROUTES TO CHAOS IN ROTOR DYNAMICS (JOURNAL BEARINGS)

Author: ABU-MAHFOUZ, ISSAM ABDULLAH

Degree: PH.D.

Year: 1993

Corporate Source/Institution: CASE WESTERN RESERVE UNIVERSITY (0042)

Adviser: M. L. ADAMS

Source: VOLUME 55/01-B OF DISSERTATION ABSTRACTS INTERNATIONAL.

PAGE 6689. 367 PAGES

Descriptors: ENGINEERING, MECHANICAL; APPLIED MECHANICS

Descriptor Codes: 0548; 0346

The behavior of three fundamental nonlinear rotordynamical systems are investigated with particular attention on the routes to chaotic motion: (1) Rotor-stator rub-impact interaction modeled by a Hertzian contact radial force and a Coulomb friction tangential force; (2) Dynamically unstable hydrodynamic journal bearing; (3) Statically and dynamically unstable pivoted- **pad** journal bearings (PPJB).

In each of these systems the dynamical disturbance is from rotor unbalance. A quite extensive numerical experimentation for a wide range of parameters yields results rich in subharmonic, quasiperiodic and chaotic motions. Orbital motions, phase-portraits for the **pads** in terms of their angular pitching velocity and amplitude, Poincare's maps and bifurcation diagrams are used as qualitative descriptors to observe the evolution of chaos in the systems considered. Numerical evidence of different routes to and out of chaos are delineated and categorized. Feigenbaum type, **period**-doubling (**period**-halving), quasiperiodic with **period** locking, and sudden (crisis) sequences of bifurcation leading to and out of chaotic regions are produced.

These rotor dynamical phenomena are potentially of considerable value as a diagnostic tool in assessing condition monitoring signals that are now routinely taken on modern rotating machinery. Although the systems considered are relatively simple and very important in rotor dynamics, their chaotic behavior has not been investigated before. The present work presents new insights significant to understanding highly complicated nonlinear behaviors of rotor dynamics. This work also provides a strong motivation for further work on chaos content of rotordynamical systems, particularly for higher **order** systems, i. e., multi-bearing flexible rotors.

BDTTRE HOST VDNTAR FORLUSTTYGNT DUNI

SWEDEN: ON THE PROSPECTS FOR DUNI AND MARIEBERG

Finanstidningen (XTB) 27 Aug 1996 p. 9
Language: SWEDISH

The newspaper corporation Marieberg has had a secure profit-making machine in the Duni corporation, which manufactures disposable paper cups and trays, disposable plastic eating utensils etc. as well as paper **napkins** and some other tissue paper products. During the first half of 1996, Duni suddenly encountered unexpected losses. The business result went down from 136 to 58 million SEK (around 8,84 million US\$) and margins of around 6-7 percent disappeared. A new paper machine for so-called dry tissue paper at SkVpafors hasn't been utilised in full last year, and lower sales on the consumer market this year hasn't improved the situation. However, results for Duni might begin to pick up during the second half of the year, as the falling pulp prices first begin to affect the company after a 5-year shelf-life **period** for old stocks has come to an end. Duni **buys** some 60 000 tons of pulp each year, and at a 500 - 750 US\$ per ton difference, costs for pulp alone could go up or down by around 100 million SEK. The company is estimated to have a **net** sales level of around 1 billion SEK for its Swedish-manufactured products, both on the consumer market at home or abroad.

COMPANY: MARIEBERG; DUNI

Drug test

Warner, Melanie

Fortune v140n2 PP: 88-96 Jul 19, 1999

ISSN: 0015-8259 JRNL CODE: FOR

WORD COUNT: 4758

...TEXT: it could never make sense of the numbers.

"If you sell a tube of toothpaste **online** for \$2.29, and I'm going to pay \$2 to have it shipped," says...

...a business model." Furthermore, he adds, "Joe Six-Pack is not buying things on the **Internet**. There's a large component of people who still shop in stores, and I don..."

...like 70-year-old grandmothers are going to wake up one morning and get on the **Web** because they think they can't live without it."

People at the two leading **online** drugstores, PlanetRx.com in South San Francisco and Drugstore.com, just outside Seattle, operate with...
...hundreds more products and a handful of new features to the 11-month-old company's **Website**. He'd also filed for an IPO less than two months after his launch. By...

...you consider that never before has a race to colonize a new market on the **Internet** been quite so fast or furious. At first glance, it seems that the brick-and...

...and alternative remedies.

Drugstore and PlanetRx expect big chunks of that \$164 billion in annual **sales** to move **online**. And why shouldn't they? People enjoy browsing through a bookstore or record store, but...

...counting pills into bottles to answer your questions. When you add in such pleasures as **buying tampons**, condoms, and wart cream in person, Neupert's promise-"We're eliminating a trip to..."

...as a customer for life. Just as Amazon.com learns your reading and listening preferences, **online** drug sites can easily learn your health habits; in fact, you help the sites along...

...to ensure there are no dangerous interactions, and provide other customer-friendly services like email **reminders** for prescription refills and subscription delivery of over-the-counter drugs and sundries you need...

...s movers and shakers moved and shook once they grasped it is the reason the **Internet** startups are so far in the lead now. In May 1998, John Doerr of Kleiner...

...VP in Microsoft's interactive media group, and asked him to be CEO of a **Website** that Kleiner was about to fund, one that would play in a market far bigger than any other consumer **e-commerce** category to date. Even though Jed Smith, now VP of strategic partnerships, had dreamed up...

...hemming and hawing, and after Doerr had introduced him to a collection of Kleiner's **Internet** CEOs, Neupert signed on in July. The site launched in late February, with a press...

...member. Unlike Neupert, Razzouk needed little persuading. He abandoned an offer from another Silicon Valley **Internet** company. By mid-September he had moved to San Francisco from Memphis and was proudly...for the media. Who'd want to show up at a shindig for the second **online** drugstore to launch in a month, anyway?

All in all, it seemed just one more...

...Without getting prescription-drug orders, you can't screen for

interactions, send e-mail refill **reminders** , or do many of the other things that might persuade a customer to log on...

FIRST HALF 1996 IPO PERFORMANCE REVIEW
S&P's Emerging & Special Situations, Vol.16, No. 7, Pg 3
July 15, 1996
JOURNAL CODE: ESS
SECTION HEADING: FIRST HALF 1996 IPO PERFORMANCE REVIEW ISSN: 0882-5440
WORD COUNT: 1,061

TEXT:

...half of 1995, 2.5X the dollar volume raised.

It was a more than decent **period** for investors as well. The S&P New Issues Index rose 20.1%. The positive results for the **period** came despite a fairly dramatic swoon in June. The Index dropped 9.0% during the

month.

By the numbers, the new issues market finished the **period** on an uptick. The 84 issues added to the S&P New Issues Index was...

... that went public in January. The 21 issues that started trading during that 30 day **period** rose 40%. Performance diminished with each succeeding month. The 84 IPOs that hit the market in June rose just 8.2%. The decline in performance reflects the reduced **period** of time these issues have been trading and is the norm. But the returns do...

...for the 55 stocks that reached the public markets in June.

CyberCash is king

Although **Internet** stocks tailed off badly as spring turned to summer, there were some winners that kept...

... encryption modules exist. Many analysts view the company as a big potential winner once the **Internet** becomes more hospitable to commercial transactions. The shares shot up recently with the disclosure that...

... with Sun and Netscape for it to be a provider of transaction software for the **Internet**. Unfortunately, the company has not yet turned a profit and is not likely to for...

... among the big winners, included Sykes Enterprises, which provides computer outsourcing services, Sawtek, which makes **signal** processing components, Sipex, an analog chip manufacturer, Whittman-Hart, which provides MIS consulting services, Remec...

...to Outdoor Systems, which offers outdoor advertising, to Ultrafem, which is developing an alternative to **tampons**. The best performing stock among the largest deals was Lucent Technologies. We **recommended** investors **purchase** the shares.

Totally absent from the list of winners and populating the losers roster were...

... companies included Flamel Technologies, CardioGenesis, Novoste, and Cardiovascular Dynamics. There is also a sprinkling of **Internet** related deals on the losers list, including Excite, Infonautics, Open Text, and Lycos. The largest deal to appear on the losers list was Compuserve, which we **recommended** avoiding when it went public.

We generally **recommend** that investors stay clear of the best performers. It is about six months after the...

... favor groups when bottom fishing. That would be the biotech and medical products groups. Most **Internet** stocks were way overvalued when they went public. Their decline may simply reflect more realistic...

... the losers roster as well, including the best (CyberCash) and worst (VocalTec) performers during the **period**. Alex. Brown had three winners, only one of which was a technology stock, and only...
